Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
☐ This opinion has been established on the basis of a translation from the original language into the following language
_____, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
 - a. type of material
☐ a sequence listing
☐ table(s) related to the sequence listing
 - b. format of material
☐ in written format
☐ in computer readable form
 - c. time of filing/furnishing
☐ contained in the international application as filed.
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

Priority

1. ☒ The following document has not yet been furnished:

☒ copy of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(a)).

☐ translation of the earlier application whose priority has been claimed (Rule 43bis.1 and 66.7(b)).

Consequently it has not been possible to consider the validity of the priority claim. This opinion has nevertheless been established on the assumption that the relevant date is the claimed priority date.

2. ☐ This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43bis.1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.

3. Additional observations, if necessary:

	Claims	NO
Inventive step (IS)	Claims 1-14	YES
	Claims	NO
Industrial applicability (IA)	Claims 1-14	YES

2. Citations and explanations:

1. This opinion makes reference to the following documents:

D1: US-A-4 757 184 (TRICK GILBERT ET AL) 12 July 1988 (1988-07-12)

D2: DE 101 19 104 A (THERMO VISION ENTWICKLUNGS UND) 6 December 2001 (2001-12-06)

2. The prior art (for example D1, D2) discloses rack frames which are intended to hold food which is to be cooked and are inserted into a cooking appliance. Sensors are also known which are fitted to the shelves of the rack frames in order to accurately measure the temperature of the food to be cooked as close as possible to the latter. The temperature measured in this manner is used to determine and control the requisite supply of power.

However, an arrangement of a positioning device as in claim 1 is neither disclosed in, nor suggested by, the prior art.

The subject matter of claim 1 thus meets the requirements of PCT Article 33(2) and (3).
